W. S. S. DRIVE BY WAR ORGANIZATION SET FOR AUG. 11

The Licking County War Work organization through the executive committee, meeting with Edwin C. Wright, general chairman, last night, voted to make a three day county wide drive in the interest of War Savings Stamps beginning August 11th.

Members of the committee, realizing that a wide distribution of government securities is a splendid asset for any community and recognizing the fact that winning the Victory Shaft will commemorate for all time this county's part in the world war, decided to inaugurate the drive with the hope of making Licking county stand first in the state.

Every effort of the War Work organization in the five Liberty loan drives and the War Chest campaign has been a gratifying success. There is no doubt that the five members of the county organization will make this, their last war work, a great credit to Licking county and to themselves.

LET JURY DECIDE 2 3-4 PER CENT BEER ISSUE

Philadelphia, Pa., July 17.—Judge Dickinson in the federal court today, concurred in the recent decision of Judge Thomson of Pittsburgh involving the right of a brewing firm to make 2 3-4 per cent beer.

Judge Dickinson qualified his decision by saying he saw no reason at this time for a formal opinion to that effect. He held that the court could not press in advance on a question that should properly be brought before a jury.

Permission was granted the Heinen & Engel Brewing company to withdraw its demand to the government's charge that it had violated the war prohibition law by making and selling beer of more than one-half percent alcohol content.

GERMANS SEEK TRADE WITH RUSSIAN REDS

London, July 17.—The German government is believed to be trying to establish trade relations with Soviet Russia and a German mission has visited Russia or is about to do so. Cecil B. Harmsworth, secretary of state for foreign affairs, told the house of commons today.

IDENTIFY BANDITS WHO SHOOT WILLOUGHBY MAN

Cleveland, July 17.—The two youthful bandits, who yesterday shot and killed Ernest Gray, a deputy marshal and probably fatally wounded two other members of a posse at Willoughby, were identified today as Andrew and Patrick Keibort of Cleveland. When taken to the county jail at Painesville the youths gave their names as Andrew and Patrick Kay of Akron.

They both surrendered yesterday after being fired upon and trapped in an underbrush following a chase in which more than four hundred residents of western Lake county participated after they had fired the fatal shots, while being run down on the request of Cleveland police for alleged burglary.

FURNITURE STORES TO CLOSE THURSDAY NOON

The furniture stores of the city fell in line today with the Thursday half-holiday plan and all the stores were closed for the first time this season.

All of them closed at noon and will continue to close on Thursday afternoon during the remainder of July and August. The plan was under consideration for several weeks, but some of the dealers were not willing to adopt it until today.

LONDON EXCHANGE DECLINES.
New York, July 17.—Exchange on London underwent another violent decline today, demand being falling to 4 1/2-5 1/2 and cables to 4 1/2-5 1/2, or 3 to 4 cents under yesterday's rate, the lowest ever reached.

ON FARM LOAN BOARD.
Washington, July 17.—Representative Lester B. Demery of South Carolina, was nominated today by President Wilson to be a member of the farm loan board.

WIRE BRIEFS

W. S. S. Reorganization of National Council of the 16 divisions basis is being made. Plans approved by Secretary.

Dr. J. C. Jones Co., S. Charleston, Ohio, has been awarded a contract for the construction of a new hospital building.

Confucius Cemetery.
The grave of Confucius, with those of his descendants of 74 generations, which is now within easy reach of the Tientsin-Peking railway, is one of the most picturesque spots in China. The family cemetery is surrounded by a wall eight miles in circumference. The trees are vast groves, trees having been planted there since the burial of Confucius 25 centuries ago. With a gate from the entrance to the Confucius cemetery is the Confucius temple, a beautiful Chinese temple buildings, with yellow glazed tiled roofs, and a grove of ancient cedars. There is also the Confucius library and the Confucius museum for the display of the only surviving descendant of Confucius.

Peculiar Feeling.
Celia had been ill for many weeks. One day when she was stronger and had been out in a chair, she slipped down to the floor and stood for a moment on her feet. "Oh," she said, "in my life I never felt so heavy before."

Paris has been hit by an airplane ambulance in service to carry accident victims from outside the city to a centrally located hospital.

TRIUMPH FOR AMERICAN IDEALS

Peace Treaty the Most Momentous Document Ever Prepared by the Hand of Man

The Treaty of Paris is the longest single treaty ever signed. It is six times as long as the treaties of the peace of Westphalia (1648) and ten times as long as the treaty of Vienna (1815); it is as long as the latter and all the subsidiary treaties resulting from it. Though it covers more ground than any other treaty made, it was prepared in half the time required for the peace of Vienna, and in less than one-tenth of the time required for the treaty of Westphalia. This phenomenal result is attributed by European statesmen to the initial adoption of the Covenant of the League of Nations, which provides for the future settlement of a large number of perplexing problems. Despite opinions to the contrary, the verdict of history will unquestionably be that the Peace of Paris carries into effect to a remarkable degree the program accepted in advance by the peoples of the world, and embodied in the Fourteen Points put forth by the American government on January 8, 1918, ten months before the actual signing of the armistice.

Of the Fourteen Points thus accepted by a world in arms, serious objection has been raised to only one, the 14th. That objection has come from a faction in the United States Senate. This 14th Point, as embodied in the treaty is Article X, of the Covenant of the League of Nations. Germany herself has insisted upon it as an essential part of the peace.

The treaty as signed makes a new world, politically, physically, morally and spiritually. The mandatory system ends the old regime of exploitation, and makes wards of the whole world in Asia, Africa and the isles of the sea. The Treaty has established in the place of artificial states natural political and national units. It has removed from the map numerous historic wrongs which have long served to embitter the international relations. It has set the world upon a new path of progress marked by the following guide posts:

1. International co-operation, including the consolidation of all existing international administrative activities.
2. Extensive machinery for co-operation in a League of Nations open to all that prove worthy of membership.
3. The creation of a labor conference and labor bureau to solve the problems of an industrial civilization.
4. A pledge to reduce armaments, and as a first step toward it the disarming of the one nation whose geographical situation has made it a menace to the world.
5. The abolition of conquest by Article X, without interfering with other methods of territorial adjustment.
6. The declaration that any war is a matter of concern to all, and the erection of machinery for dealing with conditions which endanger the peace of the world.
7. An agreement not to go to war before peaceful settlement of disputes has been tried.
8. Automatic provision sanctions for the punishment of the breach of agreements voluntarily taken.
9. A representative Assembly meeting regularly and, among other things, carrying on the work of codifying and revising international law begun by the Hague Conference.

The treaty is the most momentous document ever prepared by the hand of man. It sets the world right about face. It marks the triumph of American ideas, policies and institutions, by extending to a league of sovereign nations the democratic principles first embodied in our league of sovereign states.

EDWARD CUMMINGS,
General Secretary,
World Peace Foundation.

ALL MUST SUPPORT LEAGUE OF NATIONS

The Covenant of the League of Nations will create a situation which will at least greatly restrict and lessen the chances of war between nations. Disputes between individuals are settled by our courts and we assume as a matter of course that no one shall turn to physical force. The present war has brought before mankind, more vivid than anything else in history, the folly and waste and crime of war. We see its terrible devastation; we see its terrible sufferings. All civilized mankind will struggle for years to come under the burden of the war. With our advance in education, with our means of disseminating information, we certainly have reached the point where public judgment should support an understanding between nations that tends to throw up barriers in the path of force gathering for war.

That the covenant of the League of Nations itself presents a real constructive method which undoubtedly will greatly tend to restrict war must be admitted by all. As such, all should give it help and support.

Blood Poisoning Results From Slight Scratch

"Special Dispatch to The Enquirer."
Wheeling, W. Va., June 13.—Dr. J. C. Jones Co., President of College, died at a local hospital early today. Death due to blood poisoning, which was caused by a slight scratch which he received on his hand 10 days ago.

The above is an actual quotation from the Cincinnati Enquirer, with names omitted.

Give every injury, no matter how slight, immediate attention. Safety suggests that you keep a bottle of House-Home-e-ah always at hand for emergency use. Its highly concentrated antiseptic qualities make only a slight application necessary to thoroughly disinfect any scratch or cut. No danger of infection when House-Home-e-ah (The Original Jones) Lintment is used and yet its action is so mild that it may be freely applied to severe wounds, burns and scalds. Its soothing and healing power is almost magical. Don't risk being without it. Get a bottle from your druggist today. A 4-oz. bottle 25c. Large household size, enough to last a year, 50c. Fifty years' use proves it to be the most reliable household antiseptic. "The kind your daddy used, with my daddy's picture on the yellow wrapper." The Dr. J. C. Jones Co., S. Charleston, Ohio.

ESSEX MOTOR CARS

"When Can I Get An Essex?"

That is the Inquiry Men Now Make Concerning the Light Weight, Quality Car

Some Say Advertising Did It

There is a measure of truth to that. But the advertising was not of the usual type. The Essex received the kind of advertising that is always of lasting value. No product has been advertised as it has been that has not become a favorite.

The advertising has been the voluntary praise of tens of thousands who recognize Essex qualities. Just as it has never been necessary to stimulate a want for an automobile because its utility is recognized by everyone, so it has not been necessary to more than call attention to the Essex.

Six Million Motorists

Six million American motorists have rather definite perceptions of their ideal car. The Essex seems to have met the ideal of many thousands of that number. It is evident on every hand. You hear favorable mention of the Essex wherever the subject is discussed.

The Matter of Delivery Is All

That is about the only question buyers now ask. Factory production is now steadily increasing. It is close to a hundred cars a day. Buyers must have some patience. They must not expect to get an Essex off the floor whenever they may decide to buy. Wanted articles are not usually so easily obtained.

All dealers are forced to enter orders and make delivery in rotation. The man who buys today will get his Essex sooner than he who delays.

But isn't it worth while to take one's turn in having such an important article as an automobile, and especially when the car is so universally praised as is the Essex?

AMUSEMENTS

AUDITORIUM

Mary Regan.

Manager Femler, pleased to announce to his friends and patrons the showing for three days beginning this afternoon at the Auditorium, and Stewart who scored such a success recently in "Virginius Wives" and "A Midnight Romance." This is the latest First National production, entitled "CORNELL CLOTHES." Mary Regan gives a performance well in keeping with her new-gown popularity and her support is the best and includes Frank Mayo, leading man, Carl Miller, Barney Sherry, Donny Shaw, George Hernandez, L. W. Stacey and Helen Novis who has recently become a Universal star. The cast of Mary Regan is as follows:

Mary Regan is a recently loved by Robert Clifford, a rich man of the city. She refuses to marry him, however, because her name is a blotch on it. Her father, a notorious crook, married an heiress, and while Mary has inherited all the good qualities of her mother she is afraid that the traits of her father will suffer if she marries him. More than this, she knows that Clifford will suffer if she marries her and attempts to introduce her to his friends.

Peter Loveman and Jim Bradley, old associates of her father's, attempt to win her over to "their" side—black mail. She refuses to have anything to do with them and goes away to the mountains for a while and to endeavor to "find" herself.

To the same end Bradley brings Jack Morton, a young wanderer, put in his charge by a non-trusting father. Jack falls in love with Mary, which is just what Loveman and Bradley want of him to do. Back in the city he proposes marriage and Mary, believing that she can save him from his associates and since in her conviction that she can only be a hindrance to Clifford, accepts him. They are married and at a banquet in the city register under assumed names, as Jack wants to keep his affair secret from his father. However, the elder Morton learns of them being there and puts the wrong interpretation on the situation.

Later Mary learns of the attempt to swindle Morton of a sum of money through the predicament that Jack has fallen in and communicates her information to Clifford. Cooperating with the police he prevents the scheme from going through. But Jack, after his last wild revelry, dies. Mary, again free, feels the need of Clifford's love and protection and accepts him as her husband.

Outcasts of Poker Flat.

A most pretentious photoplay production comes to the Auditorium theatre Sunday, it being now other than a pictorialization of Bret Harte's famous book "The Outcasts of Poker Flat." Harry Carey plays the important part of John Oakhurst, the picture character in Harte's book, and is said to surpass his own great achievements in "Hoped," "Riders of Vengeance," "Hell Bent," "Three Mounted Men" and "A Fight for Love." A large and excellent cast of supporting actors of the star, Gloria Hope, the beautiful little leading woman, is seen as Sophie, Cullen Landis, as east as Tommy, J. Farrell McDonald as Uncle Billy, Virginia Chester, the

TONIC CORRECTS SICK HEADACHE

There is no more depressing disease than sick headache, or nervous headache, as it is sometimes called. Some forms are practically incurable but many can be entirely corrected by proper treatment. Almost any case can be relieved and the attacks made less frequent by building up the system by the use of a non-alcoholic tonic for the blood and nerves.

The effectiveness of the tonic treatment is illustrated in the case of Mr. George W. Spencer of No. 415 Court Street, Sioux City, Iowa. He says: "I began to have severe headaches and nervous spells about eight years ago. I had worked pretty hard and I believe this undermined my health. Whenever the headaches came on I would be completely prostrated. They shattered my nerves so that I suffered for days with a terrible pain across my temples and a pressing down pain on the top of my head and couldn't sleep. "A friend told me that he had been benefited by taking Dr. Williams' Pink Pills. I procured a box and began treatment. The first attack which followed the treatment was less severe and was over in a short time. I continued the treatment and found the remedy of wonderful benefit. My nerves have quieted, I sleep soundly and have regained my strength. Dr. Williams' Pink Pills are the only remedy that ever helped me and several of my friends have been influenced to try the pills on my recommendation." You can get this drugist can supply you with Dr. Williams' Pink Pills or you can order direct from the Dr. Williams Medicine Co., Schenectady, N. Y., enclosing fifty cents for one box or \$2.50 for six boxes. Write today for the free booklet on nervous disorders.

"Little Miss Hoover"

When Marguerite Clark, laughed at Friday the 13th hoodoo in April last, she did not know that the bad times overhead her. She was in Washington at the time and Friday was the day set for the beginning of her new Paramount picture, "Little Miss Hoover," which will be shown at the Auditorium theatre next Monday, Tuesday and Wednesday. John S. Robertson, her director, warned her in the morning about the combination of Friday and the 13th, but Marguerite, undaunted, insisted upon starting the picture.

First, the automobile made especially for the picture was stolen while on location; then several character actors who appeared in the photoplay became ill, and Frank Walton, assistant director, was injured in an accident. Several of the hens used in the production caught cold at the studio and refused to work. Little Marguerite still was cheerful. "A bad beginning makes a good ending," was her reply to all pessimistic news bearers.

"Auction of Souls"

"Auction of Souls," the sensational story of pretty eighteen year old Aurora Mardiganian, a sole survivor of 500,000 young Christian girls deported from Armenia by the Turks, which is to be presented at the Auditorium theatre starting next Thursday, has had a side, in book form, of almost two million copies in little more than seven months. The chronicle of Miss Mardiganian's amazing escape after two years in Turkish harems and soul markets, was written by her and published under the title of "Ravished Armenia."

ALHAMBRA

When Fate Decides.

That money can't buy love was convincingly shown by Madlane Travers in the first presentation here of her new Fox photoplay, "When Fate Decides," at the Alhambra theatre yesterday. The most striking characteristic of this play is Miss Travers's keen portrayal of the emotions of a wife, long unhappy, then torn between love and duty, later in terrible fear for the safety of the man she loves, and finally finding complete happiness. The action is rapid and thrilling throughout, conveying a story of wide spread to both men and women.

"When Fate Decides," together with Spania's Original Voda-Vil, 5 acts of high class vaudeville presented on the screen, will be shown tonight for the last time. This is an extra added feature and should please all.

"Sis Hopkins"

Rather than a series of laughable incidents with the semblance of a plot somewhere between them, "Sis Hopkins," the new Goldwyn picture in which Mabel Normand stars at the Alhambra theatre, beginning tomorrow, tells a consistent story in which are suspense and even thrills.

Sis Hopkins, called "Sis" for short, has an old, rheumatic father to whom she is devoted. They live on a run-down farm in the town of New Harmony and barely make both ends meet. As everyone knows, Sis is a gawky body, up to all kinds of mischief, but she is lovable as well. Through an accident Albert, the town's richest man, thinks there is

After His Own Heart

"After His Own Heart," a gripping comedy drama of unusual originality which includes mystery and intrigue, is the latest play in which Hale Hamilton, the magnetic Metro star, will be seen at the Alhambra on next Sunday. The story tells of a young millionaire who wakes up one fine morning to find himself bereft of all his wealth through the dishonesty of an unscrupulous trustee. While contemplating his immediate necessity of finding work he receives a mysterious letter offering him a large sum of money for a month of his time—what he is expected to do in return for the amount is not mentioned, but his adventurous spirit, combined with his immediate need of money leads him to accept the offer. What his experiences and how they end in an unexpected and intensely amusing climax makes the play one of distinctive originality. The story written by Ben Ames Williams and published in the All Story Weekly, gives Mr. Hamilton the clearest role in which he has yet appeared. A comedy "Tell That to the Marines" is an added feature.

GEM.

"The Unveiling Hand" is the title of the new World Picture starring Kitty Gordon which is scheduled for showing tomorrow at the Gem theatre and it is a peach of a picture—fast-moving, interesting and unusual and giving Miss Gordon one of the most intensely dramatic roles she has ever played.

GRAND.

Today.

There is commencing at the Grand theatre this afternoon and continuing for two days, a story of the utmost force and impressiveness, entitled "The Web of Intrigue" in which Harold Lockwood and Miss May Allison are playing the leading roles. The story is one of love and intrigue among the residents of the mountains of Tennessee and is especially well written and wonderfully staged and photographed. Besides the feature, there will be shown fully staged "Coppers and Scouts," a real laugh producer.

On Saturday Antonio Moreno and Miss Caro Holloway will appear in the "Drudge Trap," the second episode of "Perils of Thunder Mountain."

NO MAN OR WOMAN IS PAST HELP,
SAYS DREGO MAN.

Noted Experts Say There Is Hope, No Matter How Serious The Ailment Might Be.

TELLS HOW MANY DISEASES START.

The Drego man, the noted expert who recently came to this section for the purpose of assisting in the elimination of the many diseases prevalent in this section, has issued a formal statement with the request that all people who are afflicted with any of the wide variety of ailments through the columns of the newspaper.

Since arriving in the South, the Drego man's time has been filled in holding public lectures, at which time he has always been glad to meet the men and women who desired to know more about the treatment and relief of many of the most common diseases common to the South, and to work the working man and woman.

When asked recently to explain the probable cause of many of the diseases which are prevalent in this section, he said that the cause of many of these diseases is the poor digestion and the consequent accumulation of waste material in the system. This waste material, he said, is the cause of many of the most common diseases, and it is the duty of every man and woman to keep their system clean and free from this waste material.

He said that the best way to keep the system clean and free from this waste material is by the use of the Drego man's medicine, which he said is the only medicine that can be taken without any harm to the system, and which will immediately remove the waste material from the system, and thus prevent the diseases which are caused by this waste material.

OBITUARY

Mrs. Sapphronia McLaughlin.
Mrs. Sapphronia McLaughlin aged 80 years and widow of Aaron McLaughlin died this morning at 4 o'clock at the home of her niece Mrs. Frank H. H. 25 Fleet avenue, where she had made her home since coming from Marietta 10 years ago. Her death was sudden as she was up and around all day Wednesday and was seized with a heart attack in the night, dying soon after the family came to her. The deceased heard her struggle. The deceased was born in Eaglefort, Muskingum county and leaves two brothers George Winchell of Bloomington, Ill., and John of Valley City. Funeral services will be held Saturday morning at 9 o'clock in the home and the funeral cortege will drive to Zanesville where burial will be made.

James McBride.
Funeral services for James McBride were held this afternoon at 2 o'clock in the home at 231 E. 2nd St. Rev. Mr. Lamp officiated assisted by Rev. Mr. Kemper and burial was made in Cedar Hill cemetery.

Timothy D. Nichols.
Timothy Delmore Nichols, 61, died Wednesday night at 8:30 at the home of his daughter Mrs. J. L. Nichols, 80 Granville street, from cirrhosis of the liver. The funeral will be held Friday afternoon at 2 o'clock in the Bazar funeral chapel, the Rev. George Bohon Schmitt officiating. Burial will be made in Cedar Hill cemetery.

Mr. Nichols was the son of the late Major Edwin and Adelia Nichols, and was born in Newark April 23, 1858. He was united in marriage in 1883, to Miss Margaretta Work at Lancaster. Two children were born to that union, Mrs. Julia J. Long and Mrs. Donald Ferguson, who with their sister, Mrs. Mary Nichols, and two brothers, Harry of this city, and Edwin Nichols of Morrill, Nebraska, survive. He had been a pharmacist all of his life, having been engaged in business in both Newark and Dayton, and during the latter years of his life had been connected with various drug stores in this city, being in charge of the West End pharmacy when his last illness called him from active work. During his early life in Newark he was a member of the city council, representing what was then the Second ward. He was a member of the Loyal Order of Moose and had a large circle of friends in the city.

Waldo E. Burdette.
Waldo Ernest Burdette, son of Robert P. and Florence Burdette, was born March 25, 1910, and departed from this life July 19, 1919, at the age of nine years, three months and fifteen days.

Waldo was never very strong, but he had a happy disposition and throughout his long illness, which he bore with great patience, he endeavored himself to all about him; but we should not sorrow as our loss is his gain. We know that he is happy in his home above, where there is no sickness nor suffering.

He leaves to mourn their loss his father, mother, a sister Janice, and a brother George, besides a host of relatives and friends.

A precious one from us is gone. A voice we love is stilled. A place is vacant in our home. That never can be filled.

Dear Waldo, we miss you. Though God knoweth best. A consoling thought comes. That you are at rest.

Then let us live that when we die To us it may be given. To meet dear Waldo in the sky. And dwell with him in heaven.

Card of Thanks.
We wish to extend our sincere and heart felt thanks to all our relatives, friends and neighbors for their kindness and sympathy shown us in the hour of our deep bereavement, caused by the sudden death of our dear brother, John Calvin Cline. We feel especially grateful to all for the many beautiful floral pieces. Reverend Schmitt for his kind words, the singers, the E. of L. for their services, Mr. Bradley, funeral director, and all those offering their machines. Mrs. John Cline and Children.

DO YOU WANT A HOME ON THE FARM?
The department of the Interior is anxious to get an answer to this question from men who have been discharged from the service. In order that a report may be made to Congress, pointing out the places where the Government has the most land, the department has furnished the local Red Cross. Soldiers interested in this farm project of Uncle Sam may get one of these booklets at the Home Service office, 607-608 Trust building.

Whittling Judge of Alabama.
I have heard of whittlers and have seen a few in my day, writes a contributor to the Birmingham Ledger, but the most consistent whittler within the range of my memory was Judge Samuel Henry Sprout of Tuscaloosa, whose whittling prodigies while on the bench made him known throughout Alabama. He was also known widely for his great knowledge of law and the administering of it. When Judge Sprout was holding court there were always two or three long, clear strips of white pine resting on the desk beside him, and when he started on a case he also started whittling. The more interested he became in the arguments of the lawyers the faster he whittled. It was very interesting to watch him wield the knife; whittling appeared to be second nature to him.

To Polish Mahogany.
Rubbed linseed oil is the finest thing for genuine old mahogany, as it hardens and preserves the wood. Pour the oil on to a pad of soft fannel and rub the wood well. If there are any cracks in the wood the oil will fill them and harden. Wipe off the surplus oil and polish with a dry soft cloth. A little vinegar added to the oil will make a bright, clean, dry finish.

SOCIAL AFFAIRS

The Woodside Aid society is holding a picnic today at Moundbuilders park.

Nethers-Humphreys.
The marriage of Miss Emma Humphreys of Newark and Mr. Otto H. Nethers of Toboso took place at the home of Dr. L. C. Sparks in North Fifth street on Wednesday afternoon at 3 o'clock. After a wedding trip east they will be at home in Toboso.

Announcement is made of the engagement of Miss Myrtle Miller, daughter of Mrs. Mary Miller, of 285 North Buena Vista street and Mr. William Francis Upham of Raleigh, N. C. The wedding will be solemnized the latter part of August. Miss Miller has been principal in the public schools at Raleigh and Mr. Upham is state manager of the Etna Life Insurance company with headquarters in Raleigh.

Miss Miller attended Denison University and is a member of the Kappa Phi sorority at Granville. Mr. Upham was graduated from the University of Georgia and is a Sigma Nu fraternity member.

Miss Grace Fulton, who has been doing war work in New York, is the guest of Mrs. Harvey Garber of Columbus at Ottawa, Canada.

Announcements have been received of the marriage of Miss Josephine Lake and Mr. Wesley M. Totten which was solemnized at the home of the bride's mother, Mrs. G. M. Lake in Coshocton on Saturday, July 5. The bride was graduated from the Newark High school with the class of '15. Mr. and Mrs. Totten will be at home in New York.

A delightful evening party was given by Miss Mabel Stenger at her home in Wehrle avenue on Tuesday. One of the features of the evening was the box luncheon which was served and by which partners were secured. The hours were devoted to games and music and forty guests were entertained by Miss Stenger.

Miss Lois Martin entertained the sewing circle of the Blessed Sacrament church this afternoon in the basement of the church.

Tides of the Ocean.
The incoming and the outgoing of the tides is caused by the gravitational influence of the moon. The moon, so to speak, draws or lifts the water from the depths on the same principle that a pump lifts water. And as with a pump, the water rushes in to fill the space left; so the shallow water near shore rushes out to fill the extra space caused by rising of the water, on the principle that water seeks its own level.

Feeding Rabbits.
Rabbits need not only green food, but a solid staple meal every day—preferably of grain—but that is a difficulty at present; bread may be substituted, with a little bran or oatmeal, and always plenty of clean water or milk and water.

In a Balcony.
Up in the balcony of a big store's shoe department were boys busy with boxes to whom saleswomen from the floor below called like this: "Send me down a No. 2 Benny—a No. 2 Benny." "A four David, a four David," I want a three-and-a-half Charlie, understand? A three-and-a-half Charlie." Gradually it dawned upon a woman observer that the names referred not to the boys, but to the boots.

What do you say when you want a shoe? "What a shoe?" repeated the saleswoman. "That's Able." Were there greater variety in women's feet, there might not be enough names to go round the alphabet and up to the balcony. New York Evening Post.

NEWARK WOMAN AT COMMUNITY SCHOOL

Eagles, Merck Park, Pa., July 17.—Among the 200 people here attending the fifth annual sessions of the summer school of community leadership, which opened this week at Princeton University, is Mrs. M. J. Wheeler, Newark, N. J. Practically every state and several Canadian provinces are represented by the students, about half of them being secretaries of chambers of commerce and the balance men seeking training in the new profession of community leadership.

The school sessions have been preceded by a week's conference of the members of the American City Bureau staff of whom there are nearly 100. All phases of city building, and civic and community organization will be discussed in the school sessions and the class work will be conducted by the foremost specialists in such efforts.

Among the men of national prominence on the staff of instructors are Lucius E. Wilson, mayor of the community organization work, George W. Coleman, Boston, mayor of the city, and National Municipal League, J. Horace McFarland, president of the American Civic Association, and Charles H. Davis, secretary of the International Brotherhood of Municipalities.

NATIONAL LEAGUE MAY PROLONG ITS SEASON

New York, July 17.—An official meeting here today of the National club owners, the question of extending the league season to the full quota of 164 games and the possible change in the division of the world's series receipts were up for discussion.

TRANSPORT BRINGS 1638

COAL CATEGORY

"Nation faces critical coal shortage," says United States government. The government estimates a shortage of at least 68 million tons for the present year. Thousands of miners have gone back to Europe. This labor cannot be replaced as there is already a labor shortage. Somebody is going without fuel this winter. Will it be you?

Do not think me an alarmist. These are not my figures, they are the official figures of the geological survey. I have a few cars of eminent. I have a few cars of choice lump and run of mine left. First come, first served. Your government has warned you. August or autumn may be too late. I advise you to get it now while the getting is good and get it from CHARLES MEEK

The Story of Orange-Crush

Interesting Facts About the Preparation of "the Drink Irresistable"

THE process of preparing Orange-Crush was perfected in Los Angeles—in the midst of the beautiful orange-groves of Southern California. It took many years of investigation and experimenting before the drink you now know was produced.

Difficulty of Preserving Orange-Juice

The almost insurmountable difficulty which had to be faced at the start was the quick deterioration of orange-juice. The fresh juice, it was found, could be preserved only by keeping it at a temperature 18 degrees below freezing point. Sterilizing the juice greatly injured the fresh delicate flavor, and even the sterilized juice continued to deteriorate unless kept at a temperature of from one to three degrees above freezing point.

Studies of the U. S. Department of Agriculture on Orange-Juice

The difficulties in preserving orange-juice are summed up in Bulletin No. 241 issued by the United States Department of Agriculture, which, under Dr. Carl Alsberg, Chief of the Bureau of Chemistry, conducted a series of studies on the methods of preparing and preserving fruit juices. This statement appears on page 17:

"The studies on orange juice have not led to results on which a method for its preparation may be based, as no way to successfully retain fresh orange-juice flavor has been found. Sterilizing the juice injures the flavor, which continues to deteriorate gradually when the juice is kept at ordinary temperatures.

Where Orange-Juice gets its Flavor

Long ago it was found that the dominant flavor in fresh orange-juice was present also in the fresh, golden outer skin of the orange in the form of tiny, fragrant globules of oil artfully concealed in minute cells. These globules, it was found, could be preserved without flavor deterioration. The presence of a small amount of this delicious oil in combination with natural sugar, citric acid and water, give orange-juice the rare flavor of which it is justly famous.

What Orange-Crush Is

Orange-Crush is simply a skillful blend of these delicately flavored globules of oil, pressed from the

It is the presence of these minute and delicious particles of oil, distributed by the Ward process uniformly throughout the drink which gives the inimitable flavor and the fruit-cloudy appearance to Orange-Crush.

In the Heart of the Orange Country

The gathering of the fragrant globules of oil from the oranges is done by experts in the heart of the orange country where the choicest oranges in the world grow. Gentle pressing causes the cells to break open and exude their lucious content. It takes millions of oranges to supply the pure fruit oil now used each year in preparing Orange-Crush.

The Fruit Acid

Every ordinary size glass or bottle of Orange-Crush contains approximately the same amount of purest citric acid that is found in an ordinary ripe orange. It is this remarkable, refrigerant acid which gives the delightful tartness to oranges, lemons, grapefruit and other members of the citrus family. The citric acid in Orange-Crush is obtained from these fruits. It is both delightful to the taste and extremely beneficial to the human body, as any physician will tell you.

Wholesomeness of Carbonated Water

As a rule, Orange-Crush is served cold and sparkling with carbonated water. The carbonation is accomplished by the impregnation of the liquid with carbon dioxide gas, which adds to the wholesomeness and deliciousness of the drink. Dr. W. W. Skinner of the U. S. Department of Agriculture, in an official article recently published on the Composition of Bottled Soft Drinks, says:

"Carbon dioxide gas in bottled soda water is a wholesome product, identical with the carbon dioxide which occurs naturally in large quantities in certain mineral springs in the United States. Springs of this type are highly prized for their effervescent properties."

Drink Orange-Crush Often!

Whenever you drink Orange-Crush, you can always be sure it is pure, delicious and wholesome. Be sure to drink it several times every day. You will be refreshed, delighted and benefitted.

The Becoming Hat.

Ninety-nine out of a hundred women don't know how to put on their hat. Many beautiful hats are seen on the streets but few women look good in them and but seldom does one see a hat that enhances the beauty of the wearer, simply because they do not know how to don them.

The greatest fault is that, nowadays, a woman does not put the headgear down far enough over the eyes. One reason for this is that often they are not bought with a large enough head size. It is economy to have your hats made to order and so fitted to your head properly.

If your hats are becoming they don't need much hair about the face to soften them and make them look better. If the straight line of the hat again at your face is not becoming, don't pull out a lock here and there to soften the line. Instead make one big curl in the middle of the forehead and pull it out so it will make a thin fuzz or bang all across the forehead.

If the line of the hat over the ears is a tiring one, don't use the stray lock, but adjust the hat with a slight tilt toward the front.

The cameo is quite fashionable this year. Very delicate are the little brooches of pink cameo set in flange gold, and there are larger ones encircled with pearls. Diamonds are seldom if ever used in connection with cameos, but the delicate luster of pearls, if they are not too large, is admirable with the dainty tint of the cameo.

Black and white cameos are not as much in demand as the pink, but some very handsome ornaments have been seen showing black and white cameos set in rims of jet or tiny pearls.

Our Boys and Girls

Boys and girls should have their own allowance in proportion to the means of the parents as soon as they are old enough to begin to save their money. An allowance is the best safeguard against the habit of extravagance if the child is taught to spend the money judiciously and to keep a strict account of all expenditures.

It is absurd to think that a boy is not capable of buying his own necktie or a girl her own handkerchiefs. What if they do make mistakes? They can be taught to profit by them and they must learn to rely upon themselves sooner or later. Children like to be trusted and will seldom betray confidence.

To give castor or cod liver oil to children, not babies, pour a little milk into a wine glass, then pour the oil into the center of the milk and carefully pour a little more on top. If the whole is drunk without stopping the oil will not be tasted at all.

Every Day Etiquette

"Is it correct for a man to walk between two women when he is escorting them along the sidewalk? And should he give one arm to each woman?" asked Fred.

"No. The man walks outside, toward the outer edge of the sidewalk. It is not customary for a woman to take a man's arm on the street unless she is an old lady, or the sidewalk is very crowded," suggested his uncle.

GOITRE

Removed for this Springfield, Ohio Girl by External Remedy

Mrs. Frank Beard, 1610 Karr street, Springfield, says in her own home paper, the Springfield Daily News: "Sorbol-Quadruple removed a goitre of five years' standing for my daughter, five years ago, and it has never bothered her since. It enlarged her neck 1 1/2 inches and made her a nervous wreck. We despaired of her life. It took less than one bottle to restore her to good health. I am glad to tell anyone our experience, even by letter."

Sorbol-Quadruple comes in small bottles containing enough for most cases. It will not stain or irritate the skin. After the goitre is removed the parts are left in a healthy normal condition. Requires ten minutes daily.

Says His Prescription Has Powerful Influence Over Rheumatism
Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allergic Completely Banned All Rheumatic Pains and Turgors.

Mr. James H. Allen suffered for years with rheumatism. Many times the terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid, have been dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every cause and symptom of rheumatism from his system.

He freely gave his discovery to others who took it with what might be called marvelous success. After years of urging he decided to tell sufferers everywhere that they could get their freedom through the newspapers. T. J. D. drug store has been appointed agent for Allethia in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.

MANY CHILDREN SUFFER FROM EYE STRAIN
Because their mothers dislike seeing them wearing glasses. But if mothers could be made to understand how a child with imperfect vision suffers every waking hour, there would be an end to all pride in the matter. We invite parents to submit their children to us to have the condition of their eyes determined.

REORGANIZATION & EXPANSION SALE!!!

NO CHARGES, EX-
CHANGES or APPROV.
ALS During This Sale!

STARTS TOMORROW MORNING

STORE CLOSING AT
NOON THURSDAYS IN
JULY AND AUGUST!

THE SALE PRICES ARE NOTHING SHORT OF SACRIFICING

Women's, Misses' & Children's Wearing Apparel Closed Out Completely

All Other Summer Merchandise Stocks Undergo Tremendous Reductions

THIS REORGANIZATION & EXPANSION SALE means more to you than any regular sale event—In many ways it is the most important sale we have ever held.

THE SALE PRICES IN THIS SALE are not really Clearance prices but price reductions on our own regular Standard quality merchandise.

Reason Why Mill and Wholesale Prices Have Advanced 25 Per Cent Within the Past Few Weeks

1st—Because of the tremendous domestic and foreign demand for American made goods.
2nd—Raw materials are high and increasingly difficult to secure.
3rd—Labor costs are advancing.
Foreign born workmen in the mills are returning to Europe daily in great numbers; causing greatly increased labor costs—therefore—

You would save at REGULAR prices; because we could not duplicate the same quality merchandise at our present prices in the future.

By your taking advantage of the Reorganization and Expansion sale prices you make DOUBLE savings—the sale price reductions—and the inevitable future increase prices on all lines of merchandise—This is your sale—Read—Come—Profit—Tell your friends.
